

SHIPPING CONTRACT

In compliance with the Transportation Security Administration's standard security program, this document establishes a written "contract" between the Indirect Air Carrier (New York Overnight) and the "shipper"; the person or entity that originates and tenders cargo for a series of Air transportation shipments.

In addition, shipper will agree to sign the TSA's "Aviation Security Known Shipper Re-Verification" form in order to complete the process of becoming a "known" shipper to both the Indirect Air Carrier and the Transportation Security Administration.

Shipper:

Company Name: _____
